

# Short Course: Si/SiGe Circuit Design for Applications from GHz to THz

(Chairs: Leon Van Den Oever/Hugo Veenstra)

- Designs and Applications in SiGe Technology
  - *Peter Gammel, SiGe Semiconductors*
- Development of 60GHz phased-array systems and W-band imaging circuits in SiGe – *Scott Reynolds, IBM*
- Design of Silicon Integrated THz Circuits
  - *Ulrich Pfeiffer, University of Wuppertal*
